West Africa drug policy training toolkit

Facilitation guide

09 February 2015

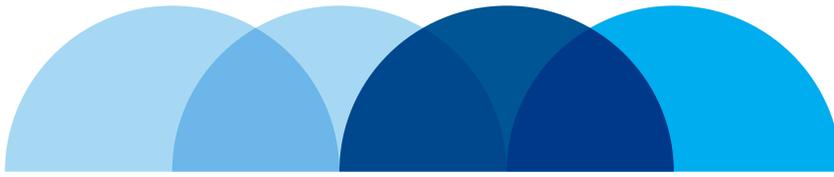

This publication was produced for review by the United States Agency for International Development. It was prepared by the International Drug Policy Consortium and the West Africa Commission on Drugs.

This Toolkit is made possible by the generous support of the American people through the United States Agency for International Development (USAID). The contents are the responsibility of the authors and do not necessarily reflect the views of USAID or the United States Government.

West Africa drug policy training toolkit

Facilitation guide

Contents:

Acknowledgments	page 2
Abbreviations	page 3
Introduction	page 4
Module 1: The global drug control system	page 13
Module 2: Balanced and effective drug policy - what needs to change?	page 35
Module 3: Effective drug prevention and treatment	page 59
Module 4: Harm reduction advocacy	page 97
Module 5: Best practice in tackling drugs, security and organised crime	page 127
Module 6: Civil society engagement in drug policy advocacy	page 151
Appendices	page 191

Acknowledgements

The West Africa Drug Policy Training Toolkit was written by Marie Nougier and Jamie Bridge from the International Drug Policy Consortium (IDPC). We wish to thank Mike Trace, Juana Tomas (Module 3) and Benoît Gomis (Module 5) for providing background information and literature reviews. Thanks also go to Barbara Goedde (Kofi Annan Foundation), Ann Fordham (IDPC), and Brooke Stearns Lawson (USAID) for their comments, reviews and support throughout.

In addition, IDPC wishes to thank the following individuals who played an important role in creating the original **Drug Policy Training Toolkit**¹ developed by IDPC and the Eurasian Harm Reduction Network (EHRN), upon which this West Africa Toolkit is largely based: Andrius Losakevicius, Ann Fordham, Caitlin Padgett, Catherine Cook, Christopher Hallam, Connie Carter, Damon Barrett, Donald Macpherson, Eliot Albers, Ernestien Jensema, Gloria Lai, Hugo Luck, Jude Byrne, Karyn Kaplan, Marija Subataite, Mat Southwell, Mike Trace, Pam Decho, and Simona Merkinaitė.

Thanks are also due to Karyn Kaplan and Fiona Lloyd for designing the 'Tree of drug policy' exercises used and adapted for Sessions 1.5, 2.2, and 3.9; and to Genevieve Harris for creating the 'traffic light analogy' used in Session 2.5 of these training materials.

Introduction to the toolkit

Facilitators' note

To deliver every activity in this toolkit would take more than a full week – and it is very unlikely that you will have this much time for your training or workshop. As such, 'Facilitators' Notes' such as this one have been inserted throughout the toolkit to guide you on which activities complement each-other or overlap. We welcome any feedback you may have to improve these notes, which can be sent to contact@idpc.net.

Introduction to the toolkit

The West Africa drug policy training toolkit has been developed by the [International Drug Policy Consortium](#) (IDPC) to build the capacity of civil society organisations in the region and to help them engage with, and influence, drug policy making processes.

This toolkit allows IDPC and a wide range of organisations to deliver trainings and workshops on drug policy advocacy to their civil society partners and members. It covers the areas of drug policy, civil society advocacy, harm reduction, crime and security, and drug treatment and prevention. The Toolkit is intended as a comprehensive menu of activities and content – from which a facilitator can pick and choose the ones which best suit the context, audience and timeframe.

The West Africa drug policy training toolkit is based on a global drug policy training toolkit¹ that was launched by IDPC and [EHRN](#) in 2013. It was funded by the Open Society Foundations and USAID², via the Kofi Annan Foundation², as part of a project to maximise the impact and reach of the report and recommendations of the West Africa Commission on Drugs.³

About IDPC

The International Drug Policy Consortium (IDPC) is a global network of civil society organisations that come together to promote objective and open debate on drug policy issues. Its vision is that national and international drug policies are grounded in the principles of human rights and security, social inclusion, public health, development and civil society engagement.

For more information, visit <http://idpc.net/>

Why was this Toolkit developed?

Over the years, IDPC has received numerous requests to deliver trainings in countries around the world – often from local civil society partners with acute skills building needs in terms of advocacy and policy reform. This Toolkit was therefore developed to build the capacity of civil society organisations to better engage with, and influence, the policy making processes of national governments and regional and international agencies.

At the same time, West Africa has increasingly become a hub in the global drugs trade – particularly for the trans-shipment of narcotics from Latin America through West Africa to Europe and North America, although local production and consumption also continue to be significant concerns. These developments pose serious threats to good governance, peace and stability, economic growth and public health in West Africa, a region that has only recently emerged from decades of violent conflict. As attention turns to drug control policies in the region, and how these may be improved, there is an important role to be played by civil society in advocating for more balanced, effective and humane responses to drugs in the region.

1. <http://idpc.net/publications/2013/06/training-toolkit-on-drug-policy-advocacy>
2. <http://www.usaid.gov/>
3. <http://idpc.net/policy-advocacy/special-projects/west-africa-advocacy/disseminating-the-recommendations-of-the-west-africa-commission-on-drugs>

The Toolkit is the result of several years of work – building on drug policy advocacy trainings organised around the world. It fills an identified gap for a global training resource that focuses specifically on advocacy for drug policy reform.

The intention is to create an open access resource that can be used by facilitators and partners around the world – independently from IDPC, although we will also be using the toolkit for our own activities in the coming years.

How is this toolkit structured?

This toolkit is composed of six independent modules:

Module 1: The drug control system

Module 2: Balanced and effective drug policy - what needs to change?

Module 3: Effective drug prevention and treatment

Module 4: Harm reduction advocacy

Module 5: Best practice in tackling drugs, security and organised crime

Module 6: Civil society engagement in drug policy advocacy

Each of module contains:

Sessions, numbered in each module, either depicted as 'Presentations' or as 'Activities' so that the facilitator knows what type of session he/she will be facilitating.

We have suggested how much time the facilitator can allocate to each session, although this is flexible and will depend on time available for the overall training.

Each session starts with the description of its aims, followed by detailed instructions on the flow of the presentation/activity.

Throughout the training materials, the facilitator will also find 'Facilitators' notes' which are intended to help the facilitator with the overall flow of the training materials and to decide which sessions are more important than others in case of time constraints.

Module 6 also includes text boxes entitled 'Shorter version if you have less time', which offer shorter alternatives to existing exercises in case of time constraints

For the 'Presentation' sessions: after the instructions, the facilitator will find a box entitled 'Information to cover in this presentation'. The amount of information to be covered by the facilitator during the actual presentation depends on time constraints and level of knowledge of the participants.

Each module ends with '**Handouts**' to distribute to the participants. These illustrate a certain topic with specific examples, or provide additional information on a specific issue. The facilitator can pick and choose which handouts they want to distribute to feed into the discussions. It is also up to the facilitator to decide when they prefer to distribute the handouts – at the beginning, during the training, or at the end.

How can this toolkit be used?

Because most trainings are just for a day or two – and some may only be for a few hours – the toolkit has been developed to allow facilitators to ‘pick and choose’ which modules, presentations, activities and handouts are the most relevant to their audience. This is particularly relevant for Module 6, which offers a wide range of exercises. The sample agendas below provide an idea of how this might work in practice:

Sample 1: When you have one day

9.00 – 9:15	Registration, coffee/tea, welcome, introductions, and objectives for the day
9.15 – 10.15	MODULE 1: THE CURRENT DRUG CONTROL SYSTEM Activity 1.2: overview of dominant international drug control approaches Presentation 1.6: West Africa has a drug problem
10.15 – 11.00	MODULE 2: EFFECTIVE DRUG POLICY: WHAT NEEDS TO CHANGE? Activity 2.2: the tree of balanced good drug policy
11.00 – 12.00	MODULE 3: EFFECTIVE DRUG PREVENTION AND TREATMENT Presentation 3.2: Objectives of drug prevention Presentation 3.5: The effectiveness and appropriateness of prevention interventions Activity 3.6: The availability of drug dependence treatment in West Africa Presentation 3.8: Minimum quality standards for drug dependence treatment
12.00 - 13.00	MODULE 4: HARM REDUCTION ADVOCACY Activity 4.1: Defining harm reduction interventions Presentation 4.3: Harm reduction in West Africa Presentation 4.5: Roadblocks to harm reduction
13.00 – 14.00	Lunch
14.00 – 15.00	MODULE 5: BEST PRACTICE IN TACKLING DRUGS, SECURITY AND ORGANISED CRIME Presentation 5.1: Setting the scene Activity 5.3: Corruption case studies
15.00 – 15.30	Break
15.30 – 16.45	MODULE 6: CIVIL SOCIETY ENGAGEMENT IN DRUG POLICY ADVOCACY Activity 6.1: what is drug policy advocacy? Activity 6.11: Creating an action plan
16.45 – 17.00	Discussion, questions and reflections on the training

Sample 2 :
When you have
two days

Day 1

9.00 – 9.15	Registration, coffee/tea, welcome, introductions, and objectives for the day
9.15 – 11.15	MODULE 1: THE CURRENT DRUG CONTROL SYSTEM Presentation merging 1.3 and 1.4: overview international drug policy and UN drug control architecture Activity 1.5: impacts and consequences of dominant drug control approaches Activity 1.6: film on international drug policy
11.15 – 12.00	MODULE 2: EFFECTIVE DRUG POLICY: WHAT NEEDS TO CHANGE? Activity 2.2: the tree of balanced good drug policy Presentation 2.3: principles to guide effective drug policy
12:00 – 13:00	Lunch
13.00 – 15.00	MODULE 3: EFFECTIVE DRUG PREVENTION AND TREATMENT Presentation 3.2: Objectives of drug prevention Presentation 3.5: The effectiveness and appropriateness of prevention interventions Activity 3.6: The availability of drug dependence treatment in West Africa Presentation 3.8: Minimum quality standards for drug dependence treatment
15.00 – 15.30	Break
15.30 – 17.30	MODULE 4: HARM REDUCTION ADVOCACY Activity 4.1: defining harm reduction interventions Activity 4.3: harm reduction in West Africa Activity 4.5: road blocks to harm reduction
	END OF DAY 1

Day 2

9.00 – 9.15	Recap on previous day and discussion
9.15 – 11.15	MODULE 5: BEST PRACTICE IN TACKLING DRUGS, SECURITY AND ORGANISED CRIME Presentation 5.1: Setting the scene Activity 5.3: Corruption case studies Presentation 5.4: Improving governance and political processes Presentation 5.7: Modernising drug law enforcement
11:15-13:0	MODULE 6: CIVIL SOCIETY ENGAGEMENT IN DRUG POLICY ADVOCACY Activity merging 6.1 and 6.2: what is drug policy advocacy and what are its objectives? Activity 6.3: the importance of planning drug policy advocacy Activity 6.5: selecting the issue or problem you want to address Presentation 6.10: identifying resources to address the selected advocacy issues
13.00 – 14.00	Lunch
14.00 – 15.30	MODULE 6 (continued) Interactive presentation 6.11: Creating an action plan
15.30 – 16.00	Break
16.00 – 17.00	Activity 6.13: Lobbying exercise
17.00 – 17.30	Discussion, questions and reflection on the training
	END OF DAY 2

Prior to the training ...

The facilitators should:

1. Develop the goals and objectives of the training and clearly communicate these to the participants prior to the workshop.
2. Determine participants' level of understanding of drug policy in order to adapt the training to their level of knowledge. This can be done with a short questionnaire sent to the participants prior to the training. When working in groups (which will often be the case in many of the activities presented in the toolkit), it can be useful to divide the participants into groups that contain both the experienced and the beginners to the field of drug policy. A sample questionnaire is available in Annex 5 of the Appendices.
3. Ensure he/she understands any specific local practices or customs with regards to trainings (i.e. the need to open or close with prayers in certain cultures, length of lunch breaks, start and end of day, etc.), and any other culturally specific needs that the participants may have.
4. Gather as much data and background information as possible from the country or region where the training is to be delivered, including:
 - Current and historic patterns of drug use, including recent increases in the supply/demand of certain substances or changes in the routes of administration
 - Relevant ratified UN conventions – e.g. relating to drug control and human rights
 - Relevant national and regional drug strategies
 - Policy response to drug use – measures adopted and funding allocated in the areas of criminal justice, treatment and prevention
 - Rationale and impact of current policies – regarding drug supply and demand, health-related indicators, etc. at the local/national level
 - Different policy options (if any) currently under discussion - e.g. recent proposals by government and / or any expressed desire for change
 - Upcoming opportunities for engagement with policy makers – e.g. forthcoming international meetings at which government and / or NGOs will be represented

This information can be gathered by issuing a questionnaire to the participants in advance of the training, and/or from some of the following online sources:

- <http://idpc.net/>
 - <http://www.wacommissionondrugs.org/>
 - <http://www.ihra.net/global-state-of-harm-reduction>
 - <http://data.worldbank.org/>
 - <http://www.unaids.org/en/dataanalysis/datatools/aidsinfo/>
 - <http://idpc.net/policy-advocacy/regional-work/sub-saharan-africa>
 - <http://kofiannanfoundation.org/>
5. Ensure that all the materials and information are ready prior to the training in terms of:
 - Flow of the sessions and good understanding of the presentations and activities planned, and an understanding of everyone's role during the training (particularly relevant when there are several facilitators)
 - Preliminary research by the facilitator(s), which is necessary for some of the activities (this is indicated in facilitators' notes)
 - PowerPoint slides and other visuals
 - Printed copies of the handouts to be distributed to the participants

6. Assess the language skills of the participants. This Toolkit is available in English and French. However, if the participants' level of English or French is not good enough, the facilitator may choose to arrange for interpretation in another language (if so, plan for extra time if you choose to do consecutive interpretation, and make sure that the facilitator(s) speak slowly if you choose to do simultaneous interpretation). In addition, a follow-up questionnaire should be sent to the participants after the training to provide a 'post' assessment of knowledge to be compared with the initial questionnaire, as a way to measure changes in knowledge from the training.

If you are delivering the training in another language, you will also need to allocate a large amount of time (and often money as well) for translating the text, slides and hand-outs in advance. If you plan to have translators in the session itself, please allow extra time for each activity.

Thorough preparation is vital for this type of training – so please do not underestimate the time that this takes!

After the training...

At the end of the training, it is useful for the facilitator to ask the participants to evaluate the workshop quality and usefulness. A [template evaluation form](#) is available in Annex 7 of the Appendices of training materials. This form can be distributed to the participants at the end of the training to give them time to fill it in and to return it to the facilitator at the end of the training.

Experience has also shown that participants appreciate receiving a [certificate of attendance](#) at the training. A template of such a certificate is available in the Annex 8 of the Appendices of the training materials. The certificates can either be prepared in advance and distributed at the end of the workshop, or can be sent afterwards to the participants by email.

Who should be involved in the facilitation of the training?

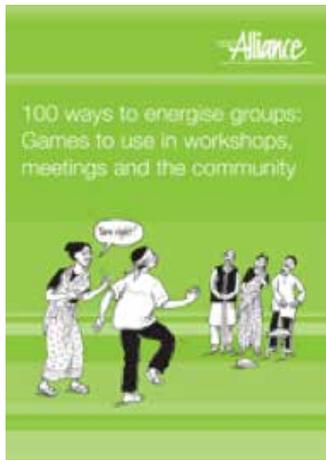

Ideally, a minimum of two facilitators should be involved in delivering the training activities from this toolkit. They should both be present throughout the training itself, as the modules are linked to each other. It is advisable that at least one trainer has some experience in using participatory methods. At least one trainer should be familiar with drug policy issues.

It is always useful to keep a record of the discussions and outputs created during the training by taking pictures. This can easily be done if there are two facilitators at the training. However, should the facilitators wish to do so, they will first need to get the authorisation of the participants. For the purposes of IDPC's and EHRN's work, we would be grateful if the facilitators could send us some pictures of the trainings they have conducted based on these materials, at contact@idpc.net.

Training materials checklist

You will need to go through each activity to check which materials (e.g. flip charts, handouts, slides, etc.) are needed. These will likely include:

- Computer with PowerPoint
- Projector and screen (or blank wall)
- Flipchart stand(s) and paper (it is useful, if possible, to have one flipchart stand per group)
- Coloured marker pens
- Wall tack or tape (to fix flipcharts to the walls)
- Large rectangular post-it notes in different colours
- Printed copies of relevant hand-outs
- Microphones (depending on the number of participants)

Energisers / ice-breakers

Some facilitators like to open a training session with 'energiser' activities – also known as 'ice-breakers'. These can prove useful to help participants to relax, and to allow everyone to get to know each other. They can also give participants greater enthusiasm for the training.

For a range of 'energiser' ideas, please read the International HIV/AIDS Alliance publication: *100 ways to energise groups* (<http://www.aidsalliance.org/publicationsdetails.aspx?id=146>).

At the very least, facilitators should allow time for a round of introduction for all participants.

Sample 'energiser':

Aim

- For participants to introduce themselves to each other
- To compare expectations and fears about the workshop with the training objectives.
- To clarify the workshop agenda and methodologies.
- To agree on ground rules for the training.

Methodology

- Presentation
- Introductory ice breaker
- Pair-work
- Group work

Time required

- Up to 1 hour

Materials needed

- Flip chart or PowerPoint slide with the workshop aims and objectives
- Flip chart or PowerPoint slide outlining the workshop agenda
- Post-it notes – 2 different colours
- Blank flip chart sheets
- Marker pens
- Photocopies of:
 - Agenda
 - Registration sheet
- Workshop aims and objectives

Preparation

- Prepare either a flipchart or a PowerPoint slide of the workshop programme
- Prepare either a flipchart or a PowerPoint slide of the workshop aims and objectives
- Prepare 2 flipcharts – one titled 'expectations' and one titled 'concerns'

Activity: Find your pair

🕒 40 min

1. Welcome participants and introduce the workshop.
2. Address any housekeeping and logistical matters.
3. Provide each participant with one of the 'Find your pair' icebreaker cards (see: [Annex 1](#)), and ask them to walk around the room and find the person who is holding their 'partner' card (i.e. the person with 'Day' must find the person with 'Night').

4. Ask each person to introduce themselves to their partner by:
 - stating their name,
 - the organisation they are from, and
 - giving one example of something they enjoy doing outside of work.

In plenary, ask each pair to present their partner to the rest of the group.

5. Give 1 coloured post-it note to each participant and ask them to write one expectation about the workshop. Ask participants to stick these notes on pre-prepared flip charts placed on one of the walls in the room. One of the facilitators needs to quickly sort these into similar themes.
6. Present the training aims and objectives – either on a pre-prepared flip chart or on a PowerPoint slide. Compare these to participants' expectations and concerns and state how each will be addressed within the limits of the workshop.
7. Present the workshop agenda, explain the methodology that will be used and address any questions.
8. Spend five minutes brainstorming and agreeing on some basic ground rules or ways of working together during the training (e.g. listening to others without interrupting, etc.) and note these on flip chart paper to be stuck to the wall for the duration of the workshop.

Notes:
